ALMA MATER

Honor to the Black and Orange!
Sing the glad refrain,

Loyal to our Alma Mater,
Ever we'll remain.

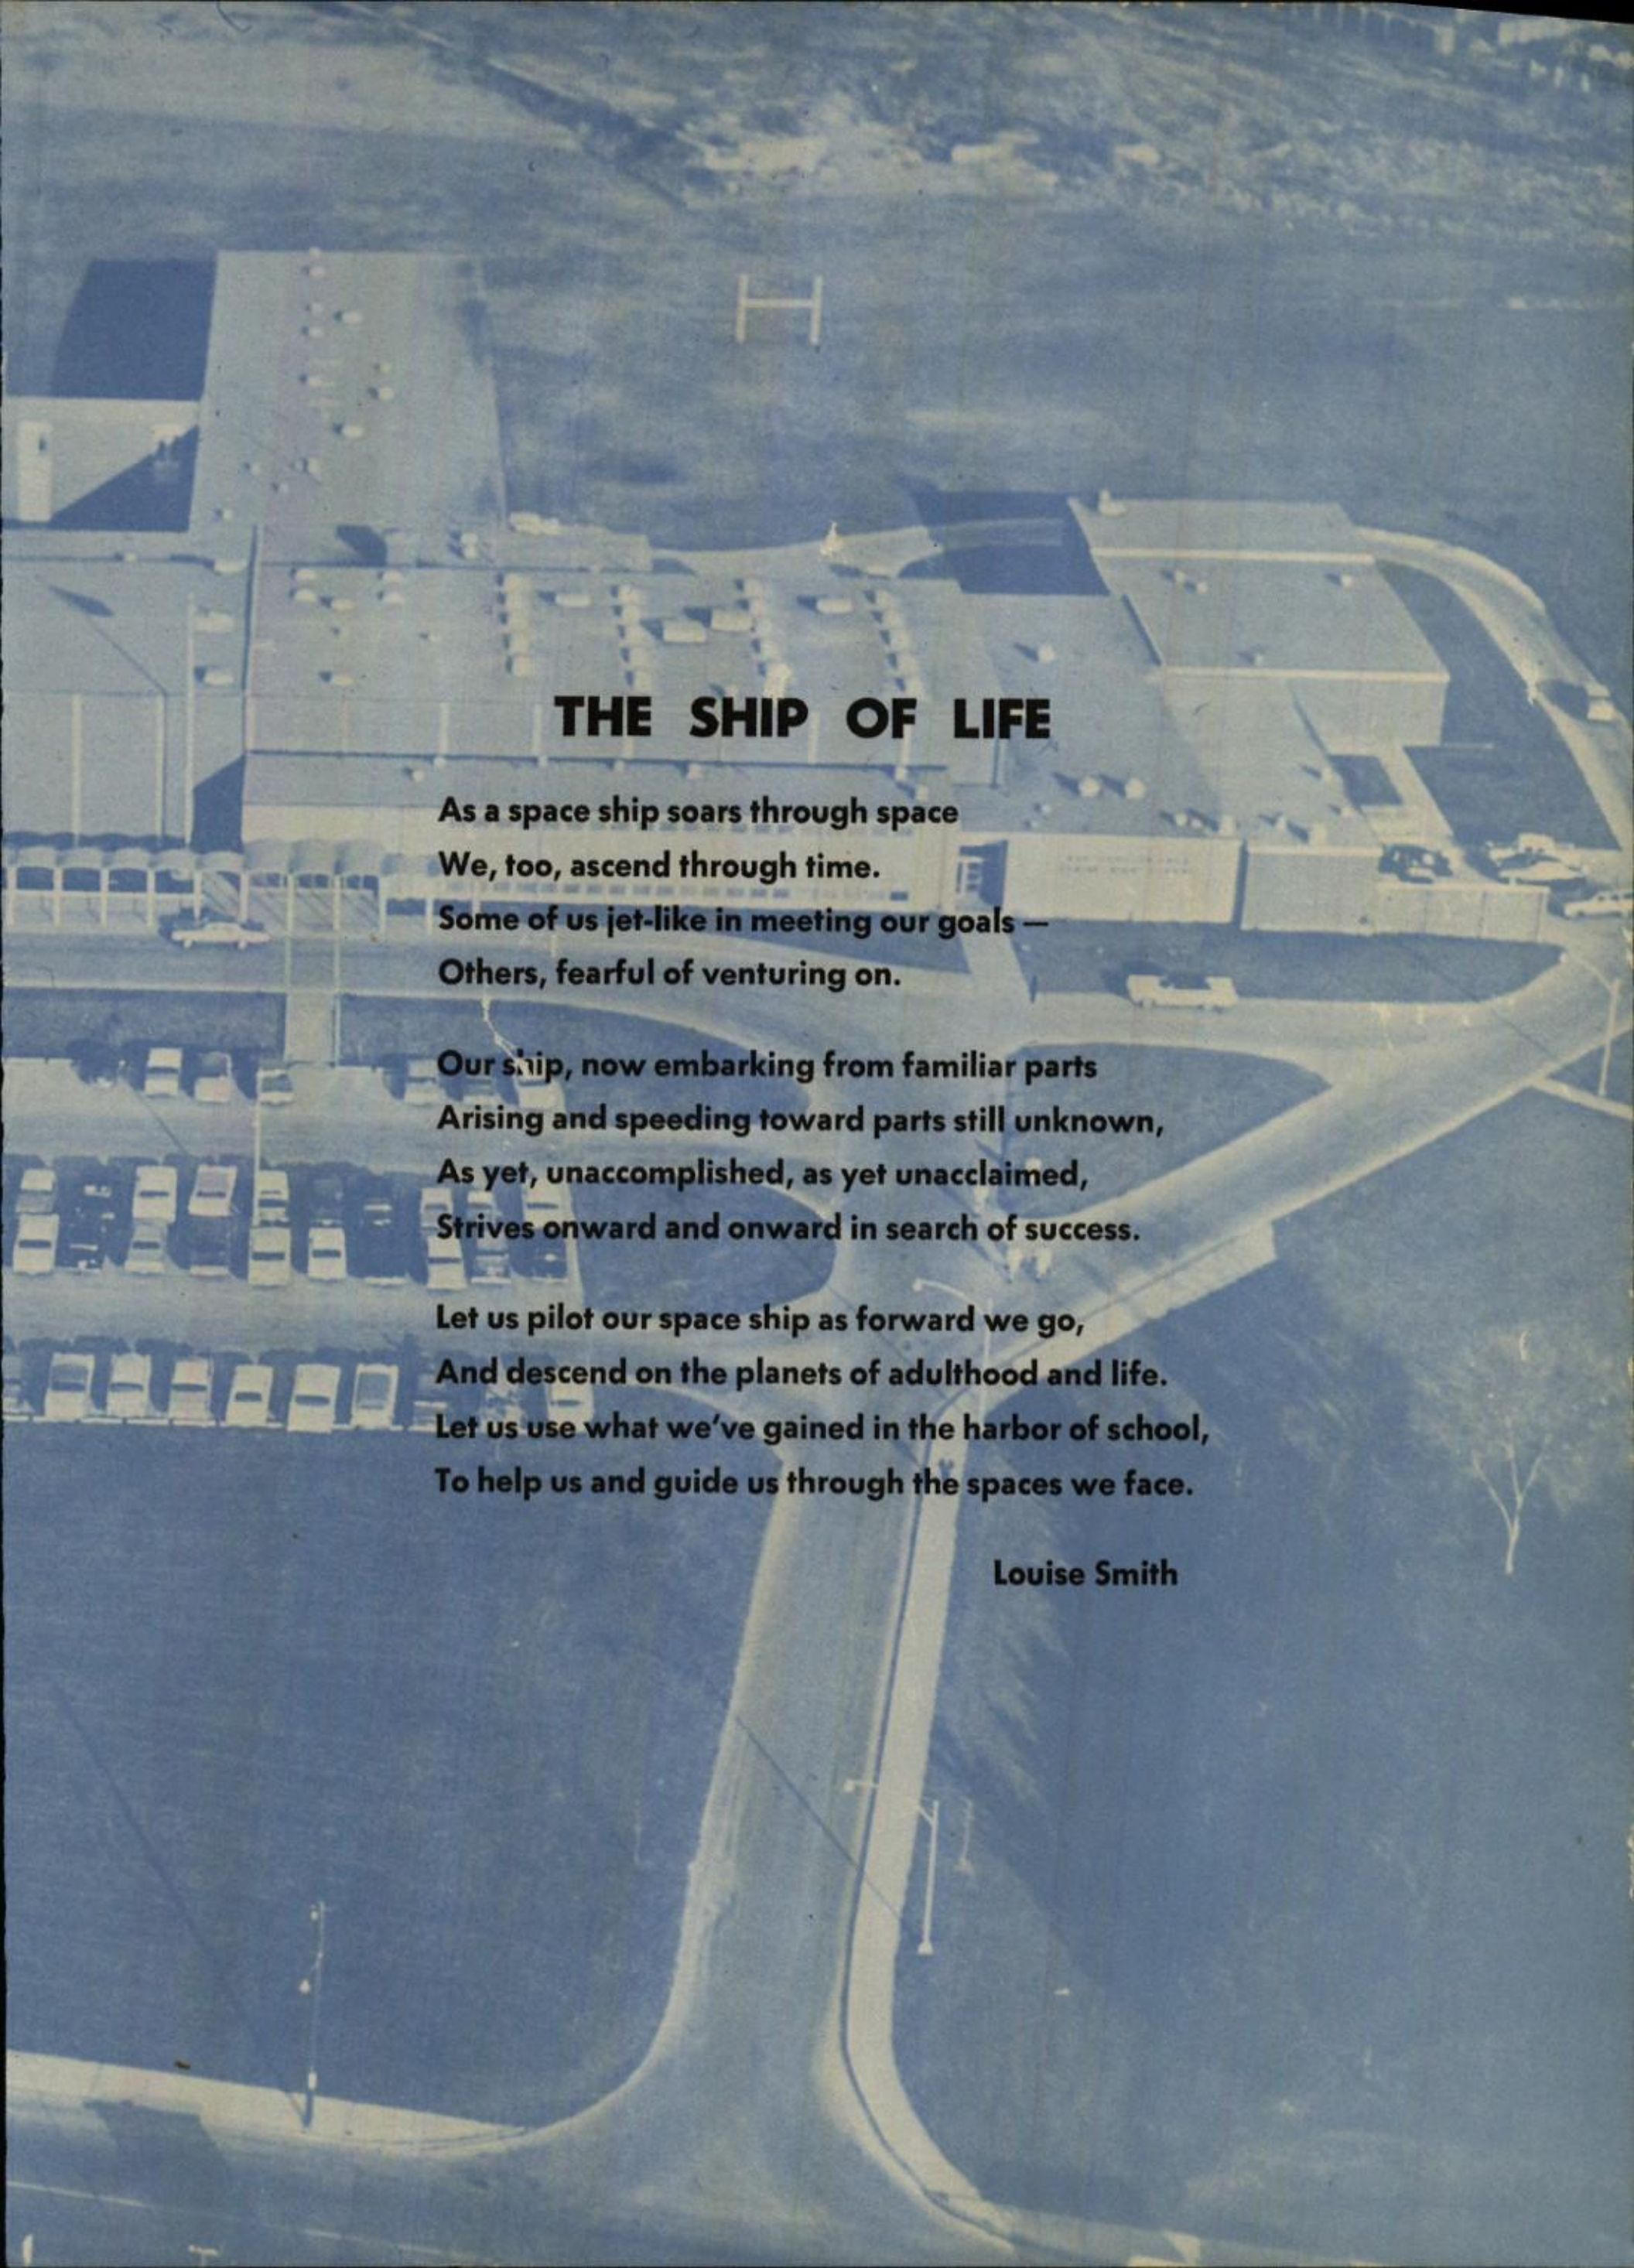

Days with her we'll e'er remember
Though our lives be long,

Here's to her whose name we'll ever
Cherish in our song.

Refrain:

Alma Mater! Alma Mater!
All our vows renew.

Hail to thee, Northampton High School
We will all be true.

An aerial photograph of a large, multi-story school building with a flat roof, surrounded by a large parking lot filled with cars. The building has several wings and a central courtyard area. The parking lot is filled with many cars, mostly light-colored. The surrounding area appears to be a mix of paved and grassy land.

THE SHIP OF LIFE

**As a space ship soars through space
We, too, ascend through time.
Some of us jet-like in meeting our goals —
Others, fearful of venturing on.**

**Our ship, now embarking from familiar parts
Arising and speeding toward parts still unknown,
As yet, unaccomplished, as yet unacclaimed,
Strives onward and onward in search of success.**

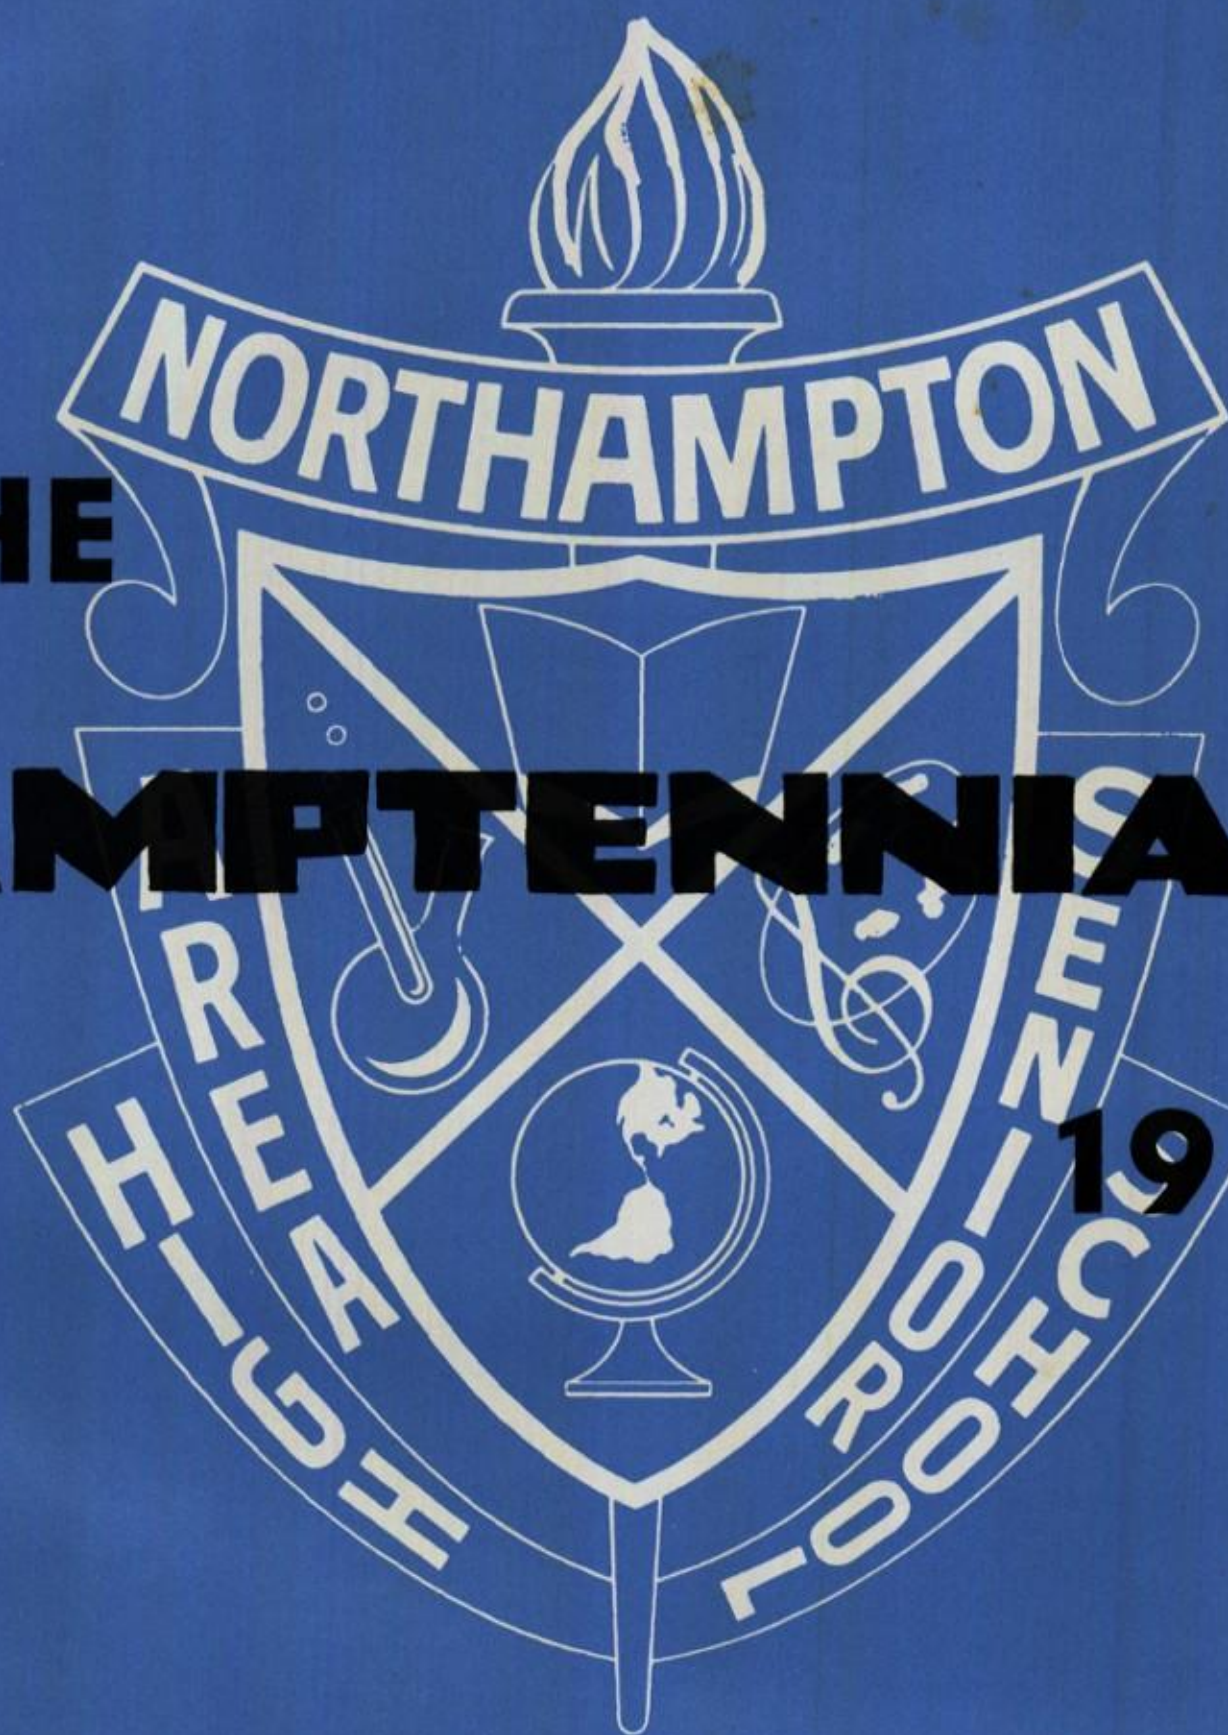

**Let us pilot our space ship as forward we go,
And descend on the planets of adulthood and life.
Let us use what we've gained in the harbor of school,
To help us and guide us through the spaces we face.**

THE

ANNIVERSARIAN

1967

MR. ALVIN N. FEGELY, B.A.

It is with admiration and pride that we, the staff, dedicate the 1967 Amptennian to Mr. Alvin Fegely, who has devoted forty-one years to the conscientious task of teaching college preparatory math to the students of Northampton. Mr. Fegely began his teaching in Revere in Bucks County. In 1927, he joined the staff of Northampton, and in 1937, pioneered in the creation of the first print shop in the school, where he taught printing as an extra-curricular activity from 1937 until 1952. For more than four decades, Mr. Fegely has dedicated himself and his time to the development of that tradition of self-discipline and respect for learning which now is our heritage.

Because of his high professional excellence, and his untiring devotion to education, because of his affectionate spirit and his inspiring self-sacrifice, we, his students, will always regard Mr. Fegely with high esteem. May his years of retirement be filled with the health and happiness which he so justly deserves.

FOREWORD

After careful consideration, the Amptennian staff chose "the Konkrete Kid" as the theme for the 1967 **Amptennian**. Since approximately 1925, the beginning of football at Northampton, the name Konkrete Kid has been synonymous with our "school spirit". Yet, what is school spirit, but the memories we shared throughout our high school days.

Memories . . . our teachers . . . the individuals who molded us into individuals . . . the gorilla grip of Harry Wall . . . the disciplinary locker patrol of Mrs. Hauke . . . the educational Pany way which is always "write" . . . more memories . . . the Czar's impersonations that made men of history come alive . . . Mr. Witemeyer's pearl-diving yell . . . Peter Saul and Mary . . . Cousin Brucie . . . Sir Isaac . . .

A year of responsibility . . . the stealthy trips to our lockers . . . hall passes . . . the lunch tickets we never purchased . . . our "quiet" library . . . the "deserted" halls between 8:05 and 8:20 . . . the pep talks from our guidance counselors . . . the "efficient" work of the student secretaries . . . the anxiety of job interviews . . . unemployment . . . term papers . . . total confusion . . . Christmas vacation . . . total elation . . . January third . . . the beginning of the end . . . College Board Examinations . . . despair . . . college applications . . . COLLEGE? . . . April Fools . . . the gradual decline . . . "tomorrow and tomorrow and tomorrow" . . .

The inspiring activities . . . our new mind building clubs . . . the chess club, our "Pawn brokers" . . . the math club, our "Newtons of tomorrow" . . . our body building clubs . . . "full of sound and fury" . . . archery club, the future cupids . . . rifle club, students of high caliber . . .

Final memories . . . Junior-Senior party . . . the Spring Prom . . . senior class trip . . . caps and gowns . . . "Pomp and Circumstance" . . . tears???

Teachers, transgressions, activities, lethargy, hope, optimism — "the Konkrete Kid" suggests all these memories to us. To you, we present the 1967 **Amptennian**. To us it is a treasure chest of memories. We hope it proves the same for you.

THE NEW CHALLENGE

This year's class of 1967 meets a world of old prejudices and new wars. (We cannot speak of this generation anymore, for destiny has cut too finely for that old phrase.) A decade ago, a B.A. indicated competence. Today, it appears inadequate. A boy, then, was mature at twenty-one. Now — he may not live so long. Neither is youth the same. Youth is more mature, critical, perceptive, and, although hopeful of his future, cautious and not easily optimistic. Youth senses the hollowness of words, the insecurity of today's world, the possibility of tomorrow's, and his most radiant quality is his commitment to life. He wants to face the real world, now, and do something about it.

Youth can be guided to find his place in the real world through active and responsible participation in school life. "The brotherhood of man" is an empty phrase unless man realizes that freedom is responsibility and individual will is inseparable from social obligation.

Nor is it textbook memorization, but in the free expression of the individual in a questioning classroom where education takes place. The individual must be given the confidence that, despite the growing complexity of our impersonal society, despite its computer-like machinery, reducing man to an integer, the individual still has a voice, and his assent or dissent still may be heard. The challenge of modern education is not simply to supply brain power and muscles for an expanding economy. The challenge is to restore youth's faith in ideals, to re-establish his commitment to these ideals, and to magnify the zeal and firmness of the free American in this hour.

which inspires courage and faith,

ALBERT L. HENRY, B.A., M.A.
Superintendent of Schools

No school tradition can be perpetuated without the guidance and dedication of its superintendent. Mr. Henry's distinguishing characteristic is just this dedication. Since he became a part of the Northampton tradition, he has unceasingly devoted himself to promote higher scholastic standards and to expand educational facilities. The new high school is just the beginning of an expanding building program. Yet, no building is complete without the spirit of education to make it live. Mr. Henry has patiently and indefatigably given of himself to build such a spirit.

confidence in ourselves,

DAVID G. OLSON, B.S., M.Ed.
Assistant Superintendent of Schools

Mr. Olson is engaged in the exhausting task of establishing a curriculum for Northampton students from Kindergarten through twelfth grade. It is his hope that he will be able to formulate a program suited to the needs of every student in the district. Firmly believing in the dignity and the individuality of each student, Mr. Olson hopes to provide the opportunity for each student to express his talent. He describes young people as "wonderful!" Certainly, his actions demonstrate his confidence and his optimism in the power of youth to create a better world.

and the daring to accept our lives.

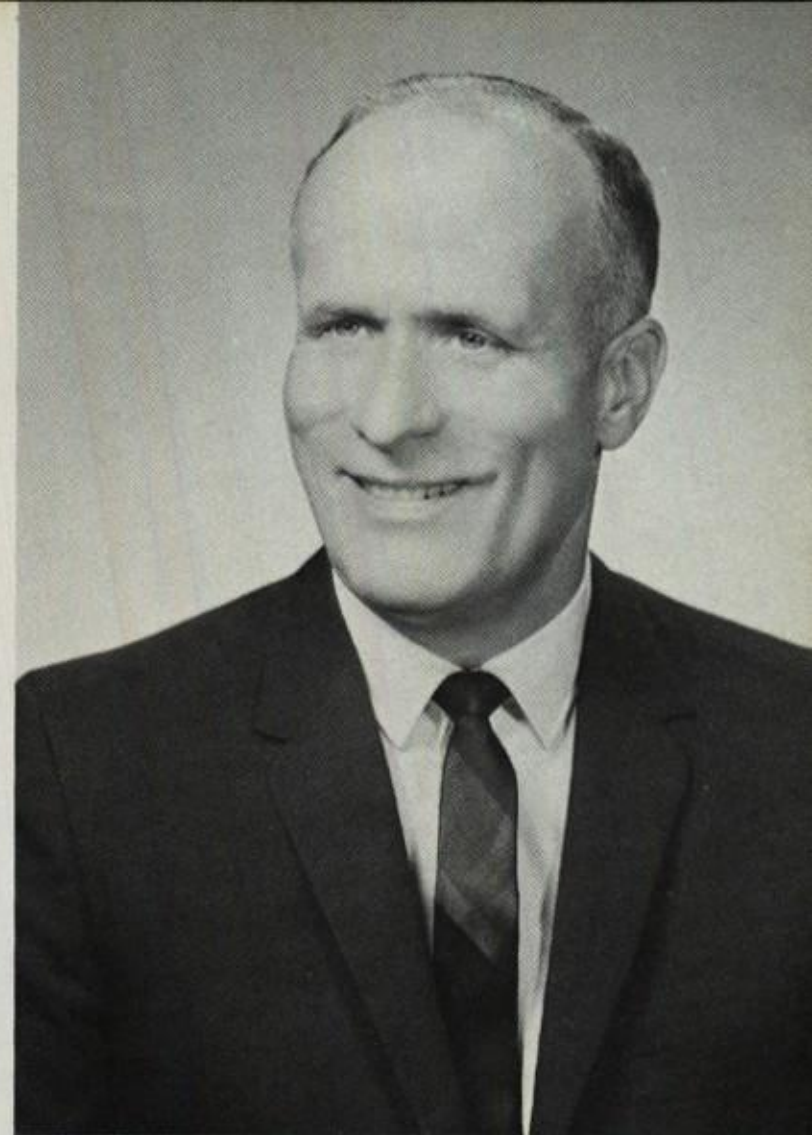

NORMAN A. LAUB, B.S., M.A.
Principal

A school is not a building; nor can Mr. Laub be considered merely the principal of a school. A school is a tradition, and our principal, born and raised within the shadow of the school, embodies that tradition. It is an old tradition, inheriting its values of self-discipline, honesty in decision, courage, and physical fortitude from Eastern European soil, but enhancing its inheritance with a quality uniquely American. Mr. Laub has been, for twenty-two years, the person who unites, inspires, and advances this tradition. He has been the stronghold of that esprit de corps which finds itself expressed in the fortitude of the disciplined student and the self-sacrifice of graduates, willing and ready to defend their country in battle.

It is a tradition which says,

ALFRED LAUBACH, Ph.B., M.A.
Administrative Assistant

It has been Mr. Laubach's task to keep alive the spirit of Northampton's tradition from day to day. His enthusiasm for the school and its activities, his unceasing encouragement of greater academic effort, his calm and careful instruction in obedience and loyalty will remain with us. It is to his effort that we partially attribute the high standard and spirit of the student body.

ALBERT M. LERCH, B.S., M.Ed.
Director of Guidance and Activities

Mr. Lerch has devoted himself to counseling students at Northampton since 1947. His responsibilities are legion. Their scope extends from interviewing and testing novice Sophomores to directing Seniors toward college or immediate jobs. His desire to call forth the hidden talent in each student has contributed to our high academic and moral standards.

A Message to the Seniors

Now that we are on the threshold of graduation, our diplomas in hand, searching for our place in the adult world, our minds linger upon the many memories we share. The warm friendships we have made these last three years will stay with us throughout our lives. Yet, although we look back upon these memories, we must look forward to the years ahead and the challenge they offer us.

I wish you success in your future endeavor. The road to success is difficult, but not impossible to traverse. We must remember that achievement comes only through faith in ourselves, perserver-

Joseph Bauer
Northampton
Academic

"Hey! Get off my cloud!" King of the road, Joe loves to "lay" rubber in his dynamic "88". He's one of the world's greatest rhythm and blues enthusiasts. knowing that we will win our fight,

Kevin Kleppinger
(June 6, 1949 — September 6, 1964)

We remember him. Kevin . . . his nervous habit of always brushing his brown hair slickly back, his mischievous manner of badgering our wits with his pranks. His tall, lanky body towered over his classmates. Summer evening, the sun stretched his shadow long across Wolf Field, while he, the Andrews twins, and Jerry Dotter played baseball. His inquisitive mind added a spark to all his classes. He greeted his friends with a boyish slap on their shoulders, his blue eyes dark and mischievously friendly.

That fall of 1963, we noticed he kept to himself. Winter. Kevin was absent on and off from school. Then, the summer of 1964, and a long illness. On September 6, 1964, in our sophomore year, Kevin's records were withdrawn from the school's files. We were bewildered, shocked. Autumn . . . cancer . . . he was gone.

Darryl Geoffrey Cross
Rotary Club Exchange Student

I am a Rotary exchange student, sponsored by Edwardstown Rotary Club, in Adelaide, Australia, and hosted by the Northampton Rotary Club. I will be staying in Northampton for about twelve months. Next year, I will go to the University of Adelaide to study Social Welfare and Psychology.

Back home, I was vice-captain of the cricket team. I also like to play tennis, swim, and surf. I have a sister, thirteen. My father is a clerical supervisor of a medical insurance company.

Impressions — Fabulous! I love the snow. It is like giving a place a completely new face. Everything is changed from its original color to a dominant white. The people here are so marvelous to me and so friendly. I am amazed. As for girls . . . Hmmm! Northampton, I guess, moves at a much faster rate than Adelaide or Australia, in general.

Since I am here on a Rotary Scholarship, their aim in sending me is my reason for being here, that is, international understanding.

A Message to the Juniors

The day has now arrived when you, the Junior Class, must assume the leading role in this school. The task of leading the student body is now your responsibility. During the past two years, you have learned to follow well. It is now your duty to guide the underclassmen by your example. As Seniors, you will be expected to follow in the tradition of discipline and excellence which those who have preceded you have established. This is now your year to show your best.

The work which must be done the coming year you must do together. Teamwork is the key to suc-

cess in any event or activity. Each student, however, has his individual responsibility to continue the high standards of the school. Each one of you must keep your scholastic achievement and grades as high as possible. The graduating Seniors place their responsibility of leadership upon you. I wish you every success in your last and most important year at NASHS.

A Message to the Sophomores

The Senior Class feels that you, the Sophomore Class, have the ability to carry out the responsibilities of the coming two years. With ten years of instruction behind you, we trust that you will meet with confidence the challenge of greater academic discipline. It is now your duty to accomplish as much as you can through study and co-operation. The challenge is there; it's up to you to grasp it.

Think in a positive manner, using the criticism

of others for the improvement of your own shortcomings. Be optimistic enough to create new ideas; be original enough to implement them! We wish you the best of luck for a very successful junior year and continued success in the future.

Onion

"He's nice, but I've seen better!"

Begin with about thirty willing seniors, and one willful director; blend with a situation involving an island home: paradise for one — pandemonium for many. Simmer the incident with faulty plumbing, a house full of guests, and a fourteen-party telephone line for approximately two acts. Add to this, a flirtatious widow, teenage love-life, and a father's theories on adolescence. The concoction finally comes to a boil with the addition of a senile senior citizen, yellow jackets, and woo-woos in the bedroom. Season with tears of laughter and serve "Onions in the Stew" as the main course of full scale enjoyment.

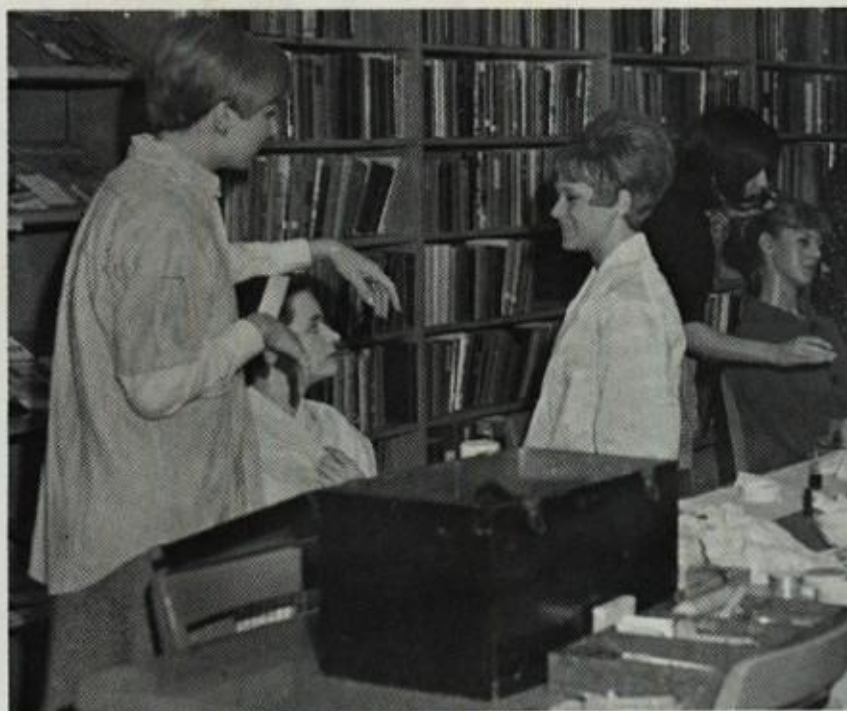

A lecture on the power of confusion!

BOYS' AND GIRLS' GYM TEAMS

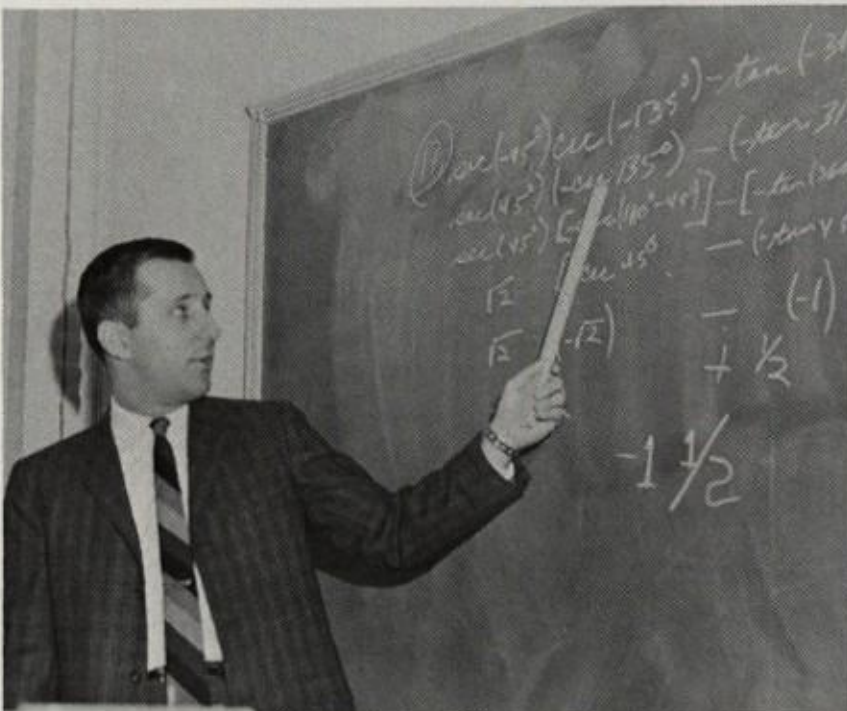

After nine months of exhausting practice of some fifteen hours a week, our young corps of forty gymnasts annually present a three hour gym exhibition of unrivaled quality. All other sports involve team effort. Gymnastics alone consists of competition against one's self — the gymnast. The gymnast stands entirely alone, and he has only one chance to prove the mastery of his art and the discipline of his body.

FOOTBALL

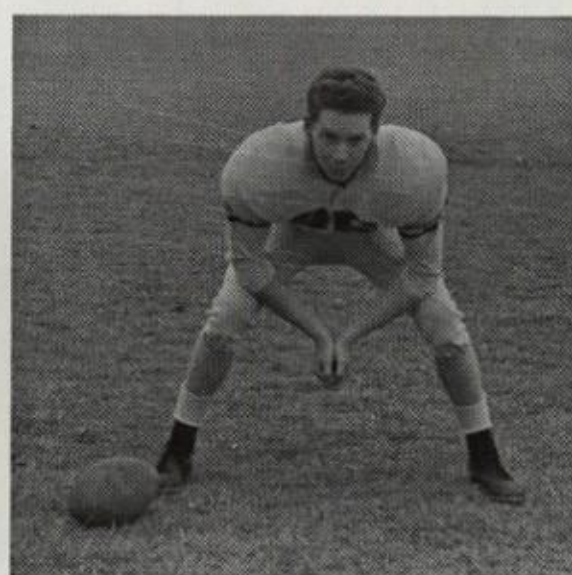

What is a team? Certainly not mere victory composes it! What the Konkrete Kids lacked in touchdowns, they made up for in personality, sportsmanship, and drive. Consider K. S. and T. A., confusing as many plays as they did people; or Big Les, the Mountain-Man, quiet, rugged, with power concealed behind reserve; or our Class President, Glenn, kind and good-natured; or the

subtle Kutzler, or Caldwell, the red-haired comet; Harhart, the blunt, aggressive gymnast, or Pius, the "Pope"! Take Filipovits, that quiet, brilliant scholar, who shocked us with his political ideas; or crafty Christoff; take Pail, Herzog, or Kish, the unforgettable Kish, who was knocked down, beaten to a dislocated pulp, and still returned for more! Many victories we may not have had, but we had men!

Dotter stretches high for two.

BASKETBALL

The Kids boast Dennis Binder, at center. In the backcourt are Joe Steffie, Danny Marokovits, co-captains, Jerry Dotter and Glenn Meyer.

On the court, Binder's ready for the center tap. He directs the ball to Dotter who eyes Steffie driving for the basket. Dotter throws a bounce pass, hits Steffie who dribbles left. Steffie passes to the right side of Meyer, who in turn whips a behind-the-back pass to Marokovits, giving the Kids a score.

Meyer executes a lay-up, after a successful, fast break.

Unwinding from his coil of guards, Binder reaches for the rebound.

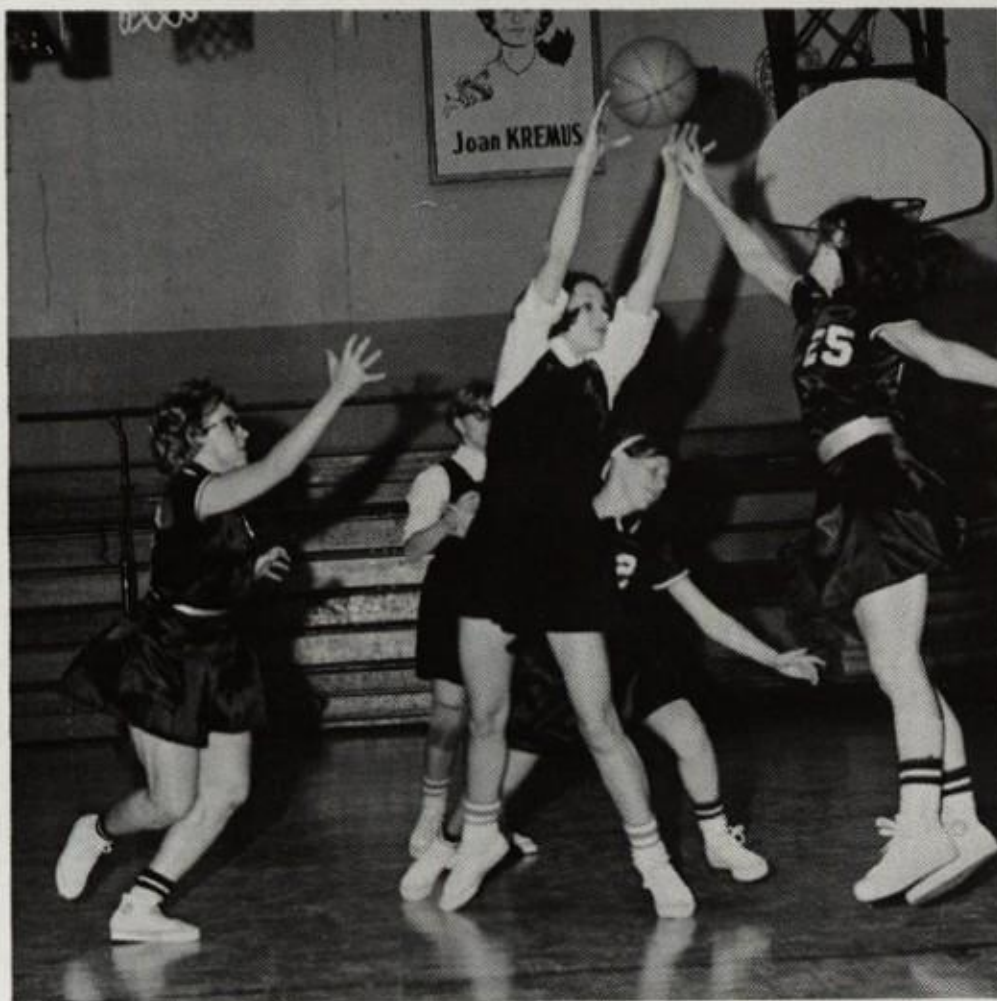

Bahnick stages a lay-up in the crucial last seconds.

GIRLS' BASKETBALL

Everyone rallies around Miss K for a last word of encouragement, and then, the game begins. Marie jumps, hits the ball to Dimples, who dribbles fast across court to Nancy. The whistle blows! Time out. All go down on their hands and knees to search for McBride's contact lens. The game resumes, and the opposition dares to shoot for a basket. The crowd's wild! "Rebound! Rebound!" screams Pat (naturally). Marie obliges. Marge falls. Donna, a four feet eleven Wilt Chamberlain, scrambles for the ball . . .

WRESTLING

Graduation will once again take its toll of the wrestling team. Among the departing senior wrestlers are four exceptional men, who led the Black and Orange to a tie for the Lehigh Valley League Championship: Marlin Coleman, Jack Hildenbrandt, Tony Mauser, and Mario Pasquariello. The team boasts a seven win, six loss record and takes special pride in Stroudsburg's defeat. The unrelenting but encouraging Harry Wall has coached his twenty-second successful wrestling team.

Carol Grube lunges aggressively to thwart determined opponent.

HOCKEY

This year's hockey season began in determination and ended in pride. Clod's shoes and Annie's sticks, windsprints and Whitehall, figure-flattering sweat pants, and "Mam's" encouragement added up to four victories and guaranteed satisfaction.

Peggy Kern prepares to tackle Phillipsburg opponent; Linda Klipple rushes to reinforce her teammate.

TRACK

The kids have done it again! Paced by Rimmel in the broad jump, Frisch in the 440, and Silvius in the dashes, the Black and Orange have swept to victory. Amptennian pays special recognition to Silfies, for his record in the 880 and the mile, Marth, for his performance in the high jump and the broad jump, and Steffie, for his achievements in the pole vault. Coaches Stranzl and Peifer have conditioned their boys into a victorious team.

Davis clears the 5' crossbar.

Rimmel soars 17 feet in the broad jump!

Marth vaults to a phenomenal 11' 3".

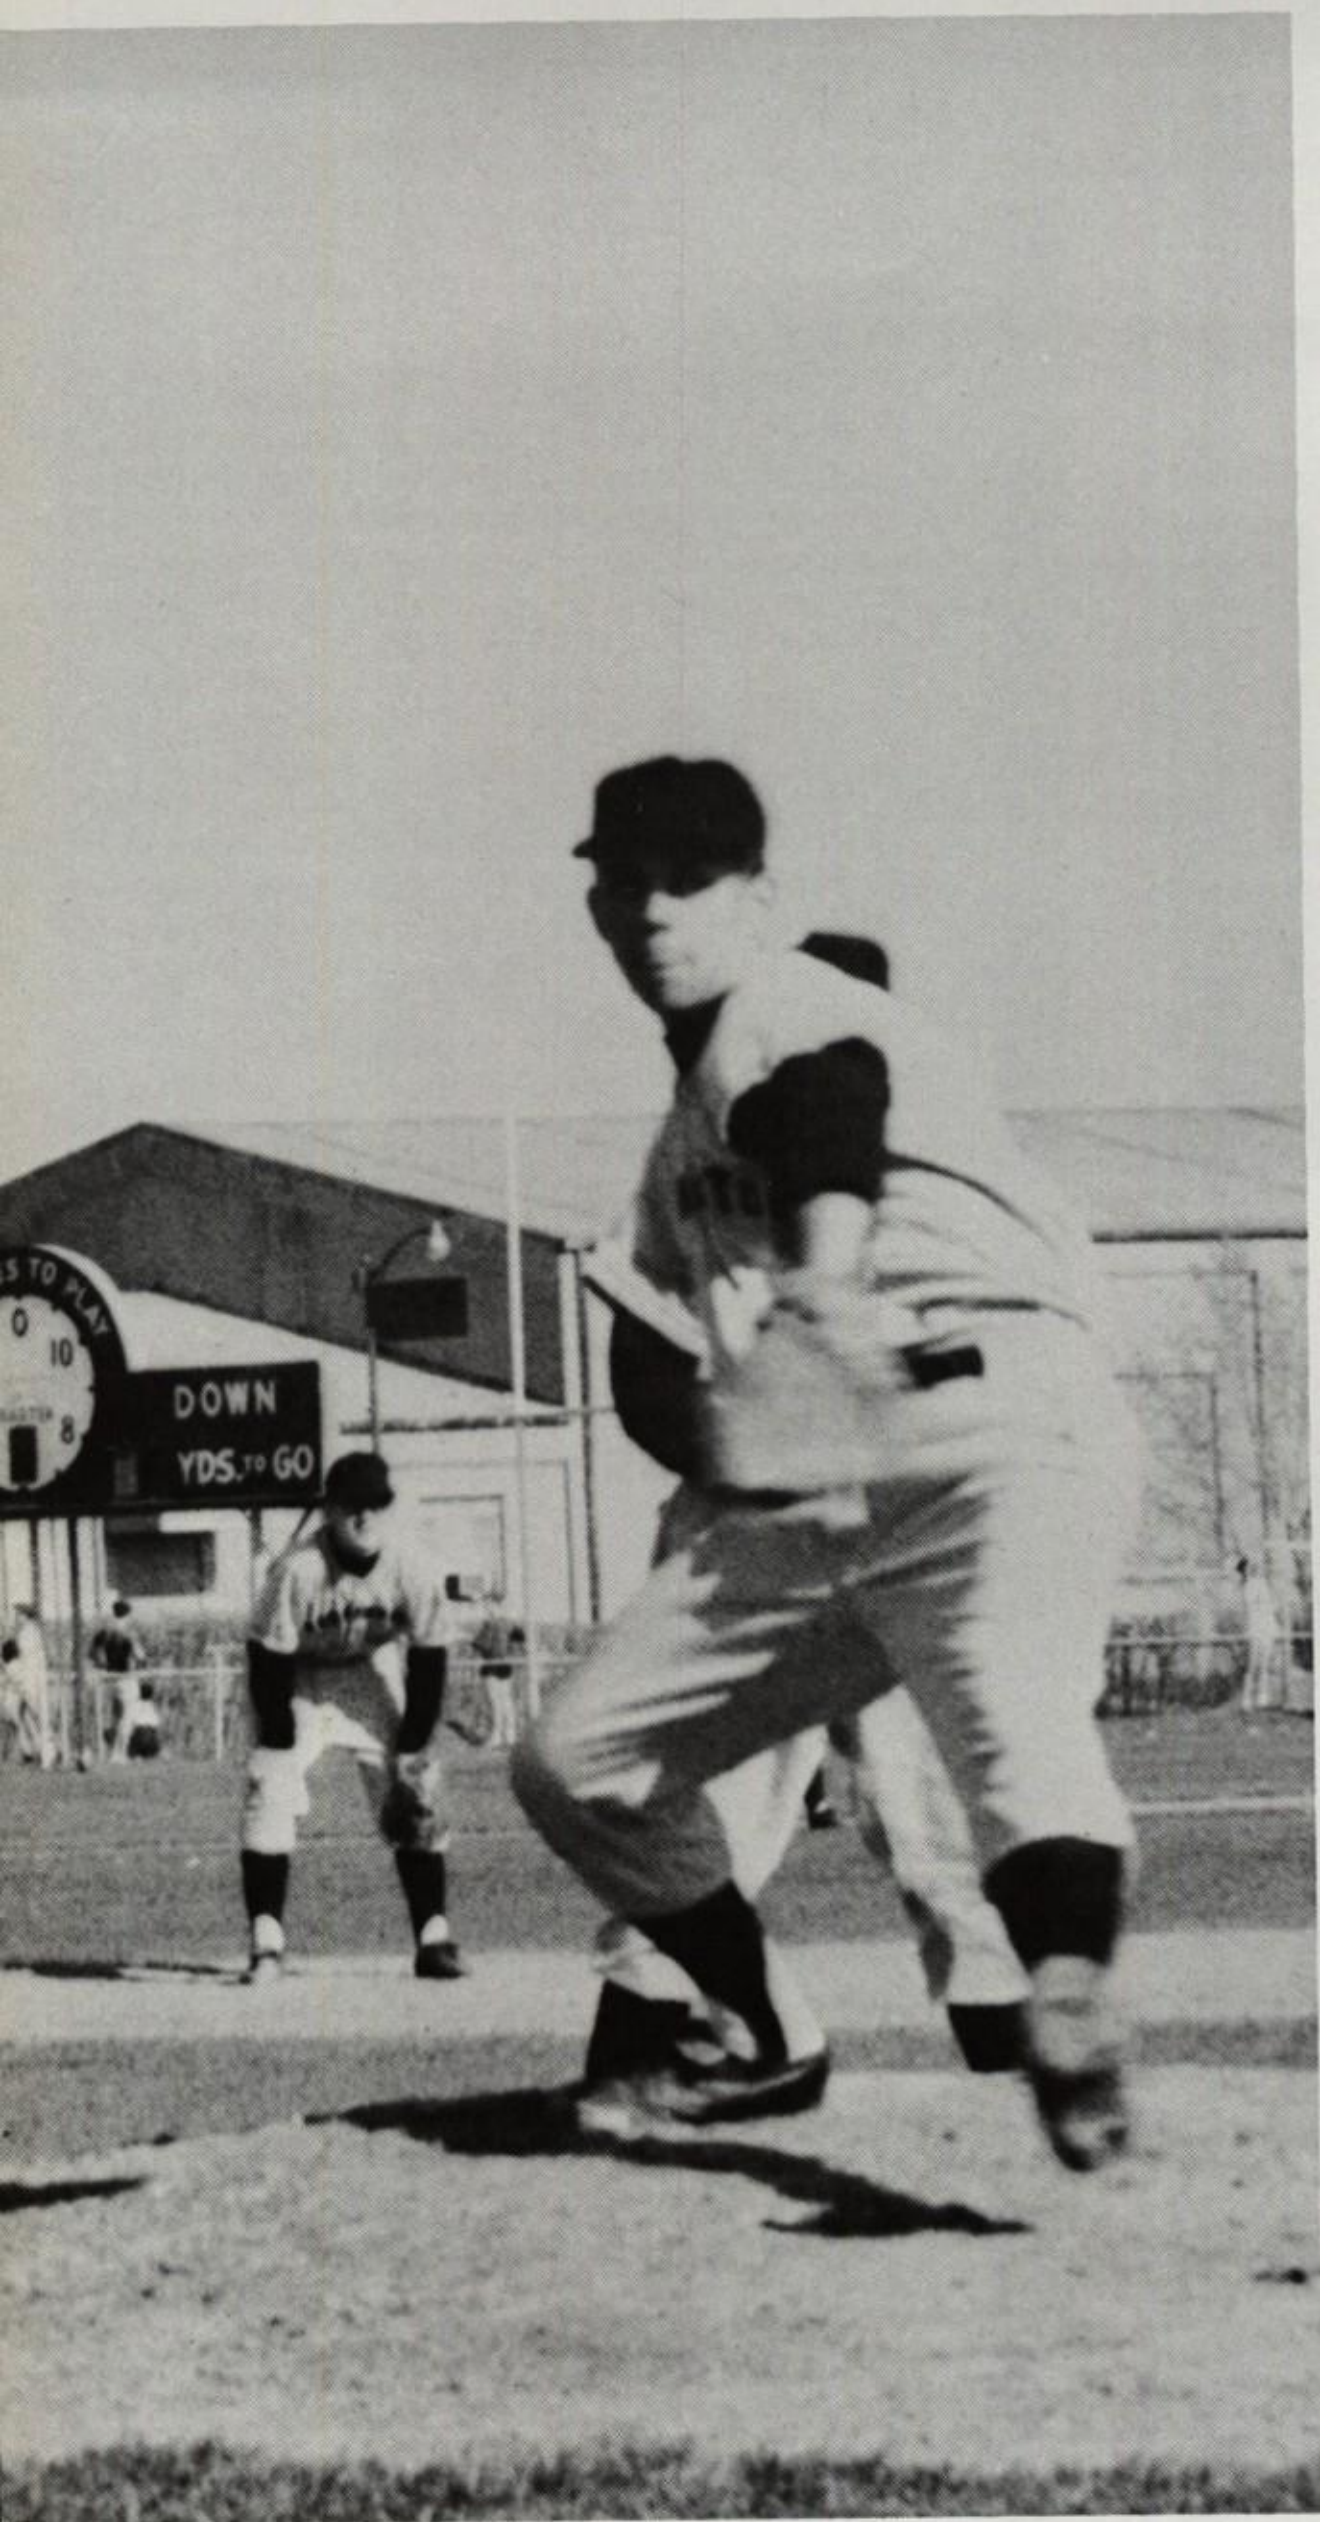

Silfies breaks the tape for a record-making 4:50 mile.

Marth executes a fantastic 5' 10" high jump!

Morgan coils for the discus throw!

BASEBALL

Did you ask, "How do we stand in baseball?" At Amptennian press time, we had an outstanding year, winning seven out of ten games. Next year's team will suffer a great loss, since seniors (J. Pail, G. Meyer, H. Borger, F. Pokorny, K. Andrews, and T. Andrews) are leaving after three years of hard-work and outstanding performance. We are proud of Mr. Lisetski for his successful season.

FOR WRONG SHALL FAIL

The all-powerful city, that impersonal, inhuman, omnipotent
Domicile of the souls, already decayed, of men who
Have lost the art of life, which molds
Humanoids, not men, crushing men's
Will, men's individuality,
Men's right
To be men, constantly moves, never ceasing in
Its efforts to destroy all that
Is sacred and good.

The pulsing, never-ending flow of the perennial river
Of iron behemoths swallowing the court of the Concrete King,
Mocking the alleged grandeur of the accomplishments
Of that bestial form which
Holds itself above
All else
That lives, performs a transient halt which lasts
Only long enough for a few
Worthless souls to cross the King's carpet.

The city and its elements stop for
No man. The city moves, and does
Not notice the things lonely, the things
Lost, the things that cry out in
Pain. The city is efficient, mechanical; it
Performs its tasks with complete detachment from
Life. The city's souls are frigid, elevated
Far beyond human niceties or common courtesies.

Into this sink of hatred walks, indeed
Moves in a manner more closely resembling
Dancing than walking, a young, idealistic man,
A soul brimming over with human compassion
And care. He enters the impersonal mob
Undaunted by its formidable front. He laughs;
He stops to talk to people who
Are oblivious; he cares, he sees, he
Notices the beauty of the morning sky.

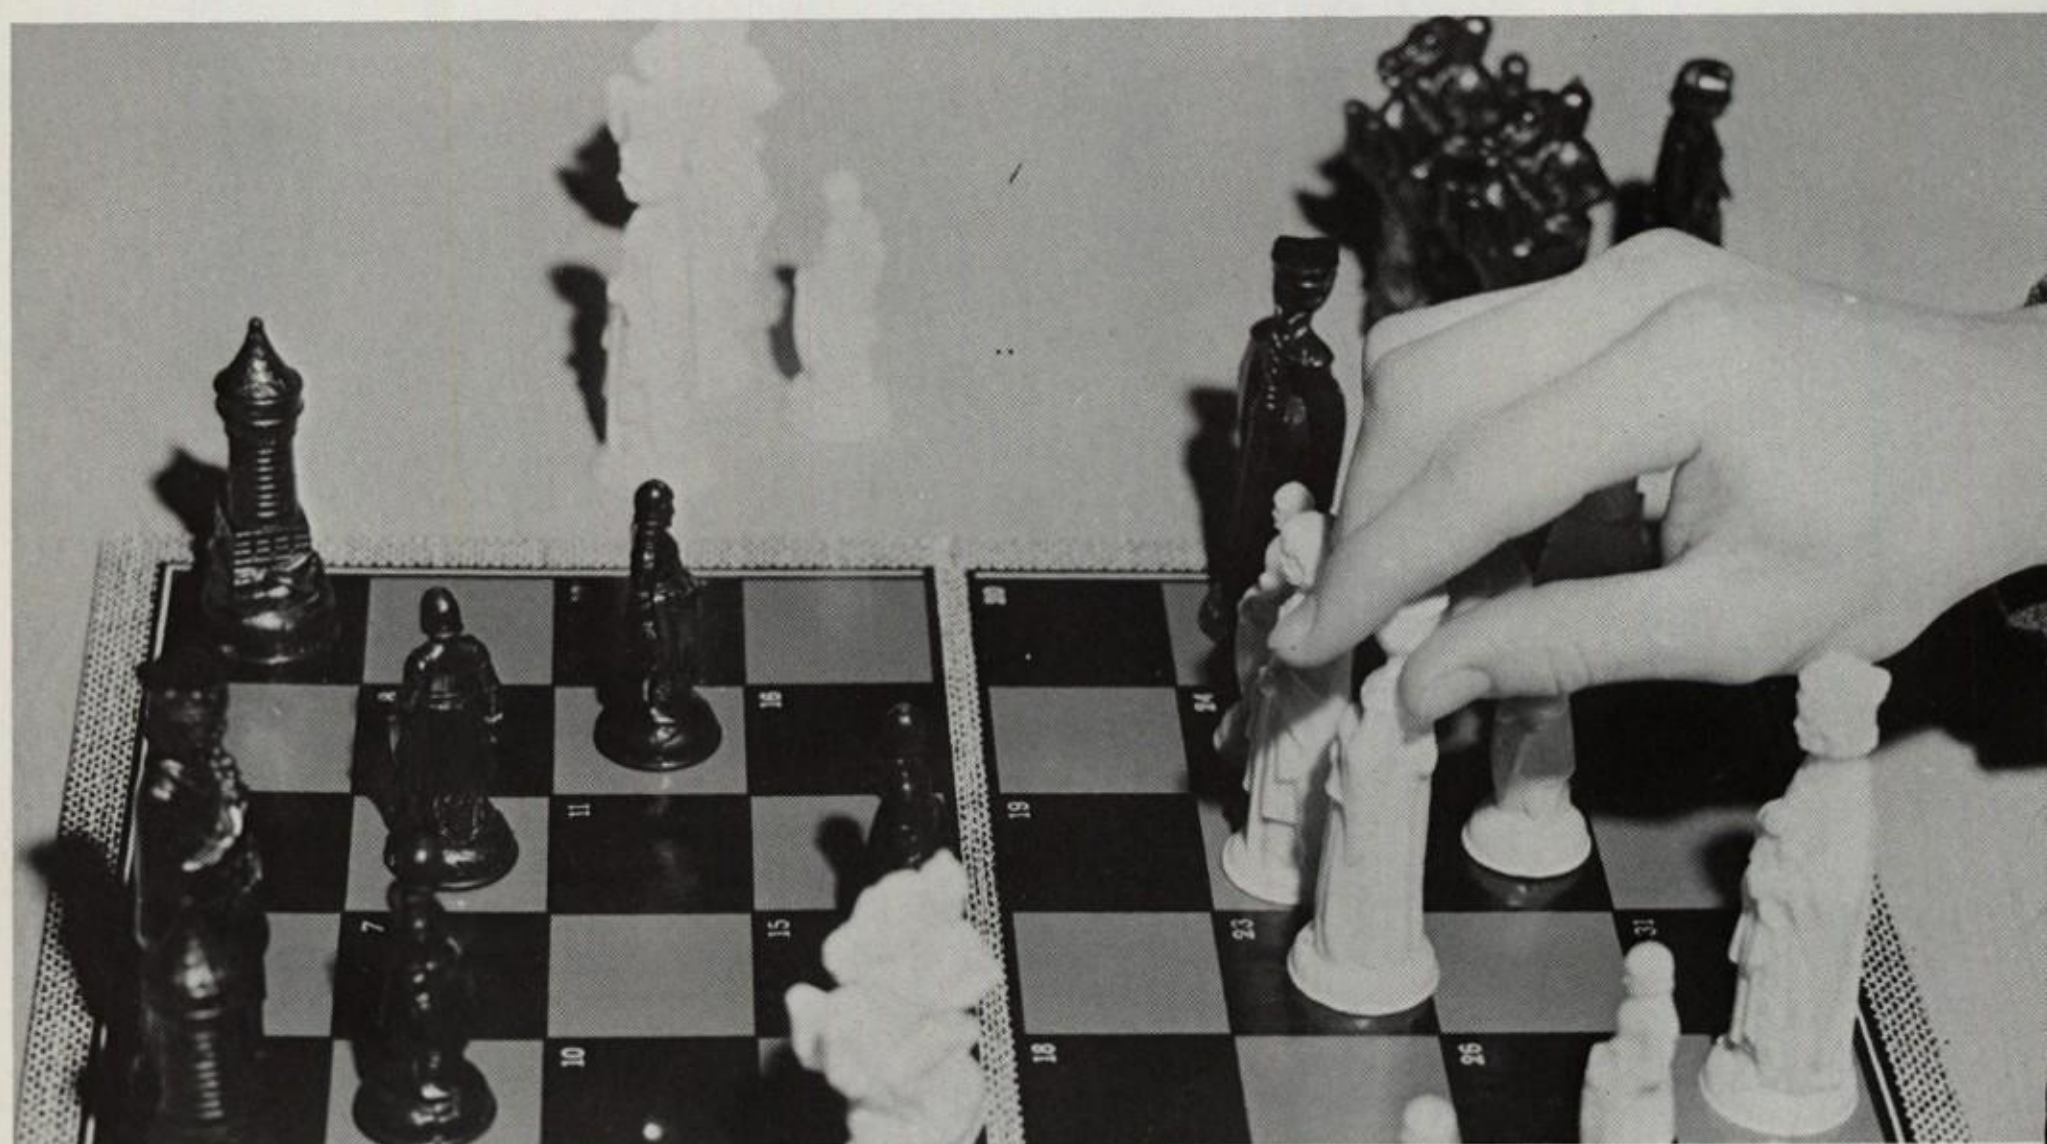

And the mob does not respond to
The intruder. The city throbs on, in
Its sterile, heartless existence. The trespasser is
Not dampened by the city's indifference. He
Pats a dog's head, tells jokes to
Deaf ears, and moves on, out of
The city, and into his own world,
A world full of meaning and life.

But the city rolls on, drifting in
Its own atmosphere of false piety and
Righteousness, and it carries with it the
Helpless souls who are lost forever, souls
Who, since they will never know of
Joy or care or friendship, will never
Know of life.

An aerial photograph of a school campus. In the foreground, a large, paved parking lot is filled with many cars. To the right, a large, light-colored building with a prominent dome on its roof is visible. To the left of the parking lot, there are several smaller, rectangular buildings. The background shows more of the campus and some trees under a clear sky.

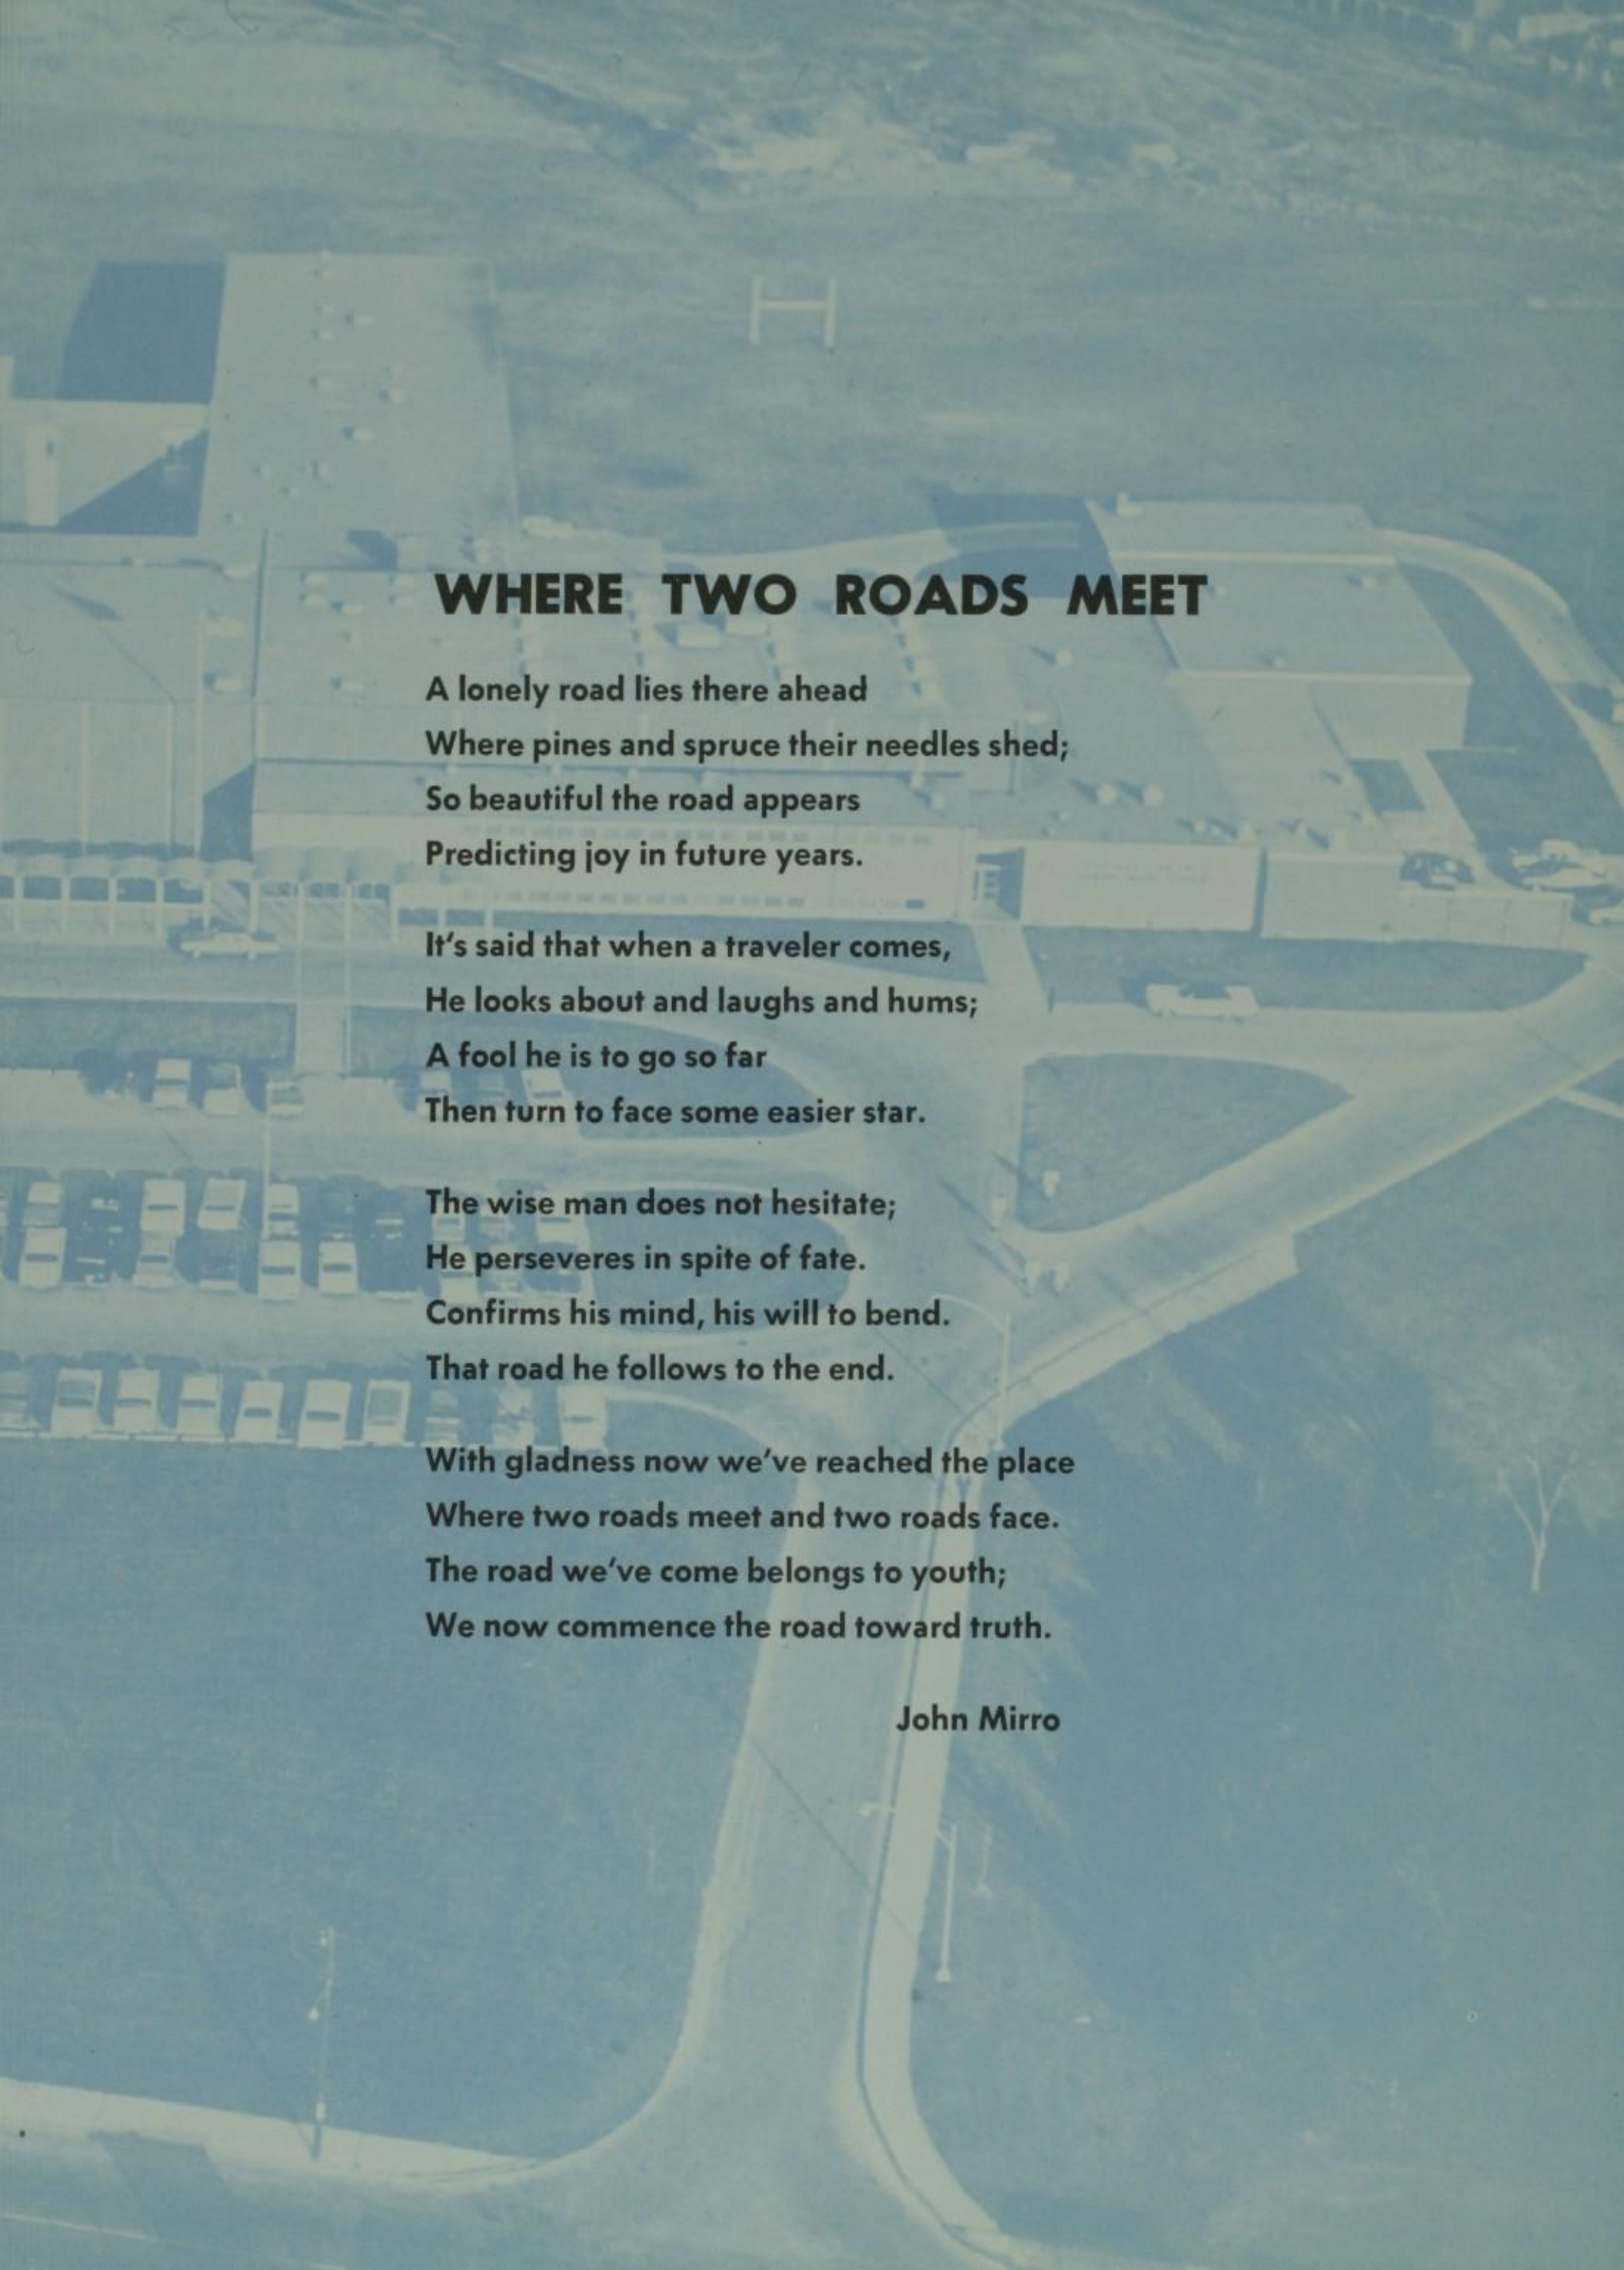

WALK ON

Walk along the empty corridors
Past classrooms closed and locked;
Memories beckon you to turn,
And yet, you walk along, alone.

Walk to the gym — the shows, the dances,
Remember with a smile, a tear,
While visions of things past haunt your mind;
Walk on, alone, to meet the world.

Walk to the door; do not turn back.
Suppress the desire to turn and run
Back to your memories and your past life.
Glance back, remember; then, walk on.

Carol Smith

An aerial photograph of a road intersection. A road enters from the bottom left and curves towards the center. Another road enters from the top right and curves towards the center. In the background, there is a large, multi-story building with a flat roof, surrounded by a parking lot filled with cars. The overall scene is captured in a monochromatic, blue-toned style.

WHERE TWO ROADS MEET

A lonely road lies there ahead
Where pines and spruce their needles shed;
So beautiful the road appears
Predicting joy in future years.

It's said that when a traveler comes,
He looks about and laughs and hums;
A fool he is to go so far
Then turn to face some easier star.

The wise man does not hesitate;
He perseveres in spite of fate.
Confirms his mind, his will to bend.
That road he follows to the end.

With gladness now we've reached the place
Where two roads meet and two roads face.
The road we've come belongs to youth;
We now commence the road toward truth.

John Mirro
